## About Safety Lock Solution

### Overview

Safety Lock Solution is started by an ex-servicemen (Indian Air Force), we are providing aluminium scaffolding on rental and sales basis to services, catering to construction, maintenance, and renovation projects across various industries. With a commitment to safety, reliability, and efficiency, we deliver tailored scaffolding solutions to meet the unique needs of each project, ensuring smooth execution and timely completion.

### Our Services

- ◆ Scaffolding Sales & Rental
- ◆ Scaffolding Design and Engineering
- ◆ Installation & Dismantling
- ◆ Scaffolding Inspection and Maintenance
- ◆ Customize Solution

### Our Mission

Safety Lock Solution's mission is to provide innovative and reliable scaffolding solutions that enhance safety, efficiency, and productivity on every project we undertake. We are dedicated to exceeding customer expectations while prioritizing the well-being of our employees and the communities we serve.

## **Benefits of Scaffolding**

Scaffolding is a temporary structure used to provide access to areas that would otherwise be difficult or dangerous to reach. It is commonly used in construction, maintenance, and repair projects. Here are some of the key benefits of scaffolding:

### **Safety Benefits**

- ◆ **Reduces fall risk:** Scaffolding provides a stable platform for workers, significantly reducing the risk of falls from heights.
- ◆ **Improves accessibility:** Scaffolding allows workers to reach difficult-to-access areas safely, minimizing the need for dangerous practices like ladders or balancing on unstable surfaces.
- ◆ **Enhances visibility:** Scaffolding can provide a clear view of the work area, helping to prevent accidents and injuries.

### **Efficiency Benefits**

- ◆ **Increases productivity:** By providing safe and easy access to work areas, scaffolding can improve the efficiency of construction and maintenance tasks.
- ◆ **Improves quality control:** Scaffolding allows for closer inspection of work, leading to higher quality results.
- ◆ **Reduces downtime:** By preventing accidents and injuries, scaffolding can help to minimize project downtime.

Scaffolding is an essential tool for ensuring safety, efficiency, and profitability in construction and maintenance projects. By providing a stable and accessible platform for workers, scaffolding can help to reduce the risk of accidents, improve productivity, and enhance the overall quality of the project.

## **Why Safety Lock Solution**

### **Safety First Approach**

We prioritize safety above all else, implementing rigorous safety measures and protocols to protect workers and prevent accidents.

### **Quality Assurance**

Our scaffolding systems undergo thorough quality checks to ensure they meet industry standards and exceed customer expectations.

### **Customized Solutions**

We understand that every project is unique, and we tailor our scaffolding solutions to address the specific requirements and challenges of each client.

### **Experienced Team**

Our team consists of seasoned professionals with extensive experience in the scaffolding industry, capable of delivering exceptional results on projects of any scale or complexity.

## Narrow Scaffolding (750 mm x 1800 mm)

Narrow type scaffolding, often used in confined spaces or areas with limited access, typically includes several standard features to ensure safety and functionality.

### Standard Features

- > Slim Design
- > Adjustable Height
- > Guardrails
- > Toeboards
- > Non-Slip Surfaces
- > Locking Mechanisms

Size Chart for Narrow Scaffold Size 0.75 x 1.80 mtr

Model No.	SL-SW12	SL-SW22	SL-SW32	SL-SW42	SL-SW52	SL-SW62	SL-SW72
Working Height-Mtr	3.2	4.2	5.2	6.2	7.2	8.2	9.2
Tower Height-Mtr	2.2	3.2	4.2	5.2	6.2	7.2	8.2
Platform Height-Mtr	1.2	2.2	3.2	4.2	5.2	6.2	7.2

## Stairway Scaffolding (1350 mm x 1800 mm)

Stairway scaffolding, also known as stair tower scaffolding, is a type of scaffolding specifically designed to provide safe access to elevated areas where traditional ladders or straight scaffolding may not be suitable. It is commonly used in construction, renovation, maintenance, and other activities where workers need to access multiple levels of a structure.

### Standard Features

- >Stairs
- >Platform Landings
- >Handrails and Guardrails
- >Modularity
- >Safety Features
- >Accessibility

Size Chart for Stairway Scaffold Size 1.35 x 1.80 Mtr

Model No.	SL-DW22	SL-DW32	SL-DW42	SL-DW52	SL-DW62	SL-DW72	SL-DW82	SL-DW92
Working Height-Mtr	4.2	5.2	6.2	7.2	8.2	9.2	10.2	11.2
Tower Height-Mtr	3.2	4.2	5.2	6.2	7.2	8.2	9.2	10.2
Platform Height-Mtr	2.2	3.2	4.2	5.2	6.2	7.2	8.2	9.2
Model No.	SL-DW102	SL-DW112	SL-DW122	SL-DW132	SL-DW142	SL-DW152	SL-DW162	SL-DW172
Working Height-Mtr	12.2	13.2	14.2	15.2	16.2	17.2	18.2	19.2
Tower Height-Mtr	11.2	12.2	13.2	14.2	15.2	16.2	17.2	18.2
Platform Height-Mtr	10.2	11.2	12.2	13.2	14.2	15.2	16.2	17.2
